A Message from the General Manager:

September is upon us, and for many, means a return to the workplace. It also means a return to the cultural and social activities we have missed; Broadway, Carnegie Hall, and Lincoln Center. For those of you planning to return to NYC, it will be a pleasure to welcome you back to The Club. All of The Club's amenities are available from guest rooms to private meeting rooms. Unwind with a drink, and entertain friends over a meal. Please note that in accordance with NYC guidelines, proof of vaccination is required to access The Club's Health & Fitness Center and dining rooms. Our staff is here to welcome you and answer any questions ahead of your stay. Special thanks to our Program Committee for their hard work and creativity. Our virtual calendar of events continues to impress and we hope you'll join us for a program. I also encourage you to view an updated list of reciprocal clubs. We have added several new clubs to our exclusive network!

On behalf of everyone at The Club, thank you for your continued support.

Upcoming Virtual Program Series: NAVIGATING THE COLLEGE ADMISSIONS PROCESS: COLLEGE ADMISSIONS EXPERTS PRESENT A 3-PART WEBINAR SERIES FOR PARENTS AND TEENS

The college admissions challenge has ramped up with more outstanding students competing – while top colleges look beyond the simply well-rounded student profile of yore, seeking to fill their classes with extraordinary achievers from a greater range of candidates. Testing has evolved, too, with changes in the SAT and ACT and the weight they carry in admissions. Perhaps the only constant in college admissions is cost: it just continues upwards!

How can families best help their children get in to the college of their dreams, making the right fit for the student – and family finances?

The Cornell Club is proud to present a special webinar series for alumni and their families featuring three experts in the college admissions process who will demystify these issues and tasks. Each 1-hour presentation will focus on one of three key facets of the college process – testing, applications and financing – so families will gain useful knowledge and get their questions answered, too.

Attendees will gain concrete suggestions – as well as thought-provoking ideas – that will help their teens achieve smart, timely college prep and make all-round wise college choices.
